### DARK'S MILL.

DARK'S MILL, Mar. 6th.—This beautiful afternoon finds me trying to pen a few lines of your ever welcome paper.

Mrs. T. Z. Smith, who has been quite sick, is improving.

Mr. Charlie Irvine is on the sick list this week.

Miss L. Hammond, one of Matilda's little beauties, spent last week with her friend, Miss Laura Saunders, near Neapolis.

Miss Della Nichols spent last Saturday week in night with Mrs. Minnie Watson of this place.

Ask John Green how he likes to go scrounging.

Miss Daisy Davis spent one night last week with her cousin, Miss Annie Davis, of Bear Creek.

Master Edwin Jones, of Friscon, is visiting his grandmother, Mrs. W. O. Gordon, at this writing.

Mr. John Green of Midland, was in our midst last Monday night.

Raven Locks spent last Wednesday very pleasantly with friends near Neapolis.

Miss Minnie Walters, of Knob Creek, was the guest of her friend, Miss Daisy Watson, one night last week.

Miss—Well, I want say who—but ask Florence Hudson if she hasn't found her a new fellow.

Messrs. Henry Evans and Henry Stevens, two of Bear Creek's gallant beaux, passed through our midst last Saturday evening and were looking as handsome as ever.

The farmers are about through planting their potatoes.

CARTER'S CREEK.

CARTER'S CREEK, March 6.—After a silence of two weeks we will try to send in the few items we have been able to gather.

Prof. J. E. Ayres opened up a school at present, but if "Madam Rimmer" be correct, will have in the near future.

HAMPSHIRE OR WESTEND.

HAMPSHIRE, March 6.—We learn from a friend that Dr. William Lankford, an old physician of Lewis County, and who lived on Indian Creek, died a few days back.

We also learn that Rev. J. W. Hensley, a citizen of Lewis County, but now stationed at Goodlettsville, Davidson

County, is lying very low with pneumonia, and not expected to live.

We learn that the President of Midland R. R. (Mr. Moss), is suffering great loss by the high waters in the Tennessee river, carrying away thousands of crosses.

The river is still rising and Mr. Moss, has a steam boat loading on what ties are not yet quite reached by the water and the passing steamers report a rise at Chattanooga yet to come down.

We learn Mr. George Staley, of Buffalo, is moving his steam saw mill, up on Swan to saw up a large lot of timber he has bought.

The citizens of the 16th stand ready to shoulder arms and march to Nashville, and defend the committee, who has recommended the age of consent for girl children to be 12 years, so they can hang and burn them for raising such infamous scoundrels. The public sentiment is certainly against such a law, and the committee deserve the heaviest possible abuse by all honorable citizens in this old commonwealth.

The article on the fourth page of the Nashville Banner, deserves the gratitude of every good citizen in the whole State.

We are sorry we neglected speaking of the new form of the HERALD, we believe all its readers think it a great improvement.

Country raised Irish potatoes are being sold for 50 to 80 cents per bushel while the Northern grown potato is being sold for one dollar and eighty-five cents per bushel—this is suffering the yankees to get ahead of the Southern farmer and it should not be so.

Mr. Miller will commence teaching school at Hampshire on 6th instant.

There will be services held at the Baptist Church 2½ miles south of Hampshire, on the 20th instant, by Rev. R. K. Dawson. We cannot speak too highly of Bro. D., and all who wish to hear an able sermon are invited to come.

What is improving and prospects are good.

Corn land is being rapidly prepared, and if no bad weather prevents, there will be quite a lot planted by the 15th of this month.

Eggs are going down; they are selling at 8 cents now—a little while back they sold for 20 cents.

## GENERAL NEWS.

The other day a man named C. T. Allen dropped his hat off a moving train at Atlanta, and jumped off to get it. He was so injured that he will probably die from the effects.

In some states the war upon gambling is being pushed to such extremes that even church raffles are not permitted. At Columbus Indiana all the society ladies and gentlemen who play progressive euchre have been indicted for gambling.

The village of Sandgate England came near jumping off a cliff into the sea one day last week. The town was built on a cliff composed of sand stone which was partially undermined, and when it caved in, the village slid down and came near plunging into the sea.

Ex-President Harrison has accepted the professorship of law in the Leland Stanford University of California. He will begin a course of lectures there next October. Until that time—he says he proposes to do nothing but read. He has declined all invitations to write articles for magazines, to lecture, attend banquets, make addresses or do anything else of a public nature.

Levi P. Morton was tendered a complimentary banquet by the members of the Senate, irrespective of party, an honor never before bestowed upon any Vice President. It is to be taken as a senatorial endorsement of Mr. Morton in charging twenty cents for ten-cent whigs.—West Tennessee Whig.

The so-called Princess Kalulani, who is the heiress apparent to the throne of Hawaii is now in the United States. She has come to try and influence this government not to annex Hawaii but to leave the country as it has been, so that she may become Queen when she reaches her 21st year.

Miss Julia Force who murdered her two sisters in Atlanta a short time ago has been adjudged insane by a court of inquiry. She however denies that she is insane and insists that she ought to be hanged. The prosecuting attorney says that the trial by the court of inquiry will not shield her from indictment and prosecution and that the plea of insanity must be made in a regular criminal trial in order to save her life.

Advices from Astrakhan in Southwestern Russia State that there is some mysterious disease prevailing in the trans-caspian region and that it is terribly fatal, thousands of the people are dying with it. It is not known what the disease is, but as the cholera came into Russia by that route, it is supposed by some to be a very malignant and deadly form of cholera.

A fool American by the name of Webb who has lived for some years in Turkey and other Mohammedan countries, has adopted Mohammedanism and adopted Mohammedanism as his religion and came back to this country to preach his new faith. No doubt he will make some converts; the fool killer has never done his work very thoroughly, even in America; but it is not likely that this will cease to be a Christian country for a few hundred years yet, anyhow.

The latter part of last week a storm rag-d in several states of the South doing great damage to property, but without much loss of life. It passed through a portion of Louisiana, Mississippi, Alabama and Georgia. The town of Greenville, Ga., was almost destroyed, one negro being killed and a number of persons injured. At Marion Ala., Mrs. Burton Mendon and her daughter were killed. At Piedmont Ga., another lady was killed, and at a number of places in Mississippi and Alabama one or two persons were killed and many injured.

Somebody has been figuring up the ages at which people marry. He says that workmen and artisans take unto themselves wives at an earlier age than those whose vocations are of a more intellectual kind. Thus, miners, textile factory hands, laborers and artisans marry at an average of 22 years. Of these the miners are first in the field, more than a hundred of every thousand of them securing wives before they become of age. Workers in textile factories run them close; then come shoemakers and tailors, and they are followed by artisans and laborers. Farmers and farmers' sons consider 25 early enough. Commercial clerks seek the pleasures of matrimony at 26. Shopkeepers and shopmen postpone the rapture a little longer. Professional men and gentlemen of independent means rarely care to incur themselves even with so delightful a burden as a wife until they have toiled the line of over 30 years.

A woman appeared on the streets of Canton, Miss., recently and attracted much attention, say the New Orleans Times-Democrat. She has a perfectly white face and hands, and short, kinky hair, with the features of a negro. The woman said that she was born black and remained so until she was fifteen years old, when she turned white, remaining so for one year, when she turned black again. Since that time she is alternately white and black, not alone in spots, but changes color entirely. She is fairly intelligent, and says she has never had a spell of sickness and has never taken a dose of medicine.

She lives near Sallis Station on the Canton and Aberdeen Road. She says she cannot stand the sun at all, and wears a double veil and heavy gloves. She says if the sun shines on her skin for one minute it causes it to blister at once. She has been examined by physicians, who are unable to account for the change in her color.

## STATE NEWS.

Congressman, N. N. Cox, of this district, a few days ago, entertained at a dinner at the Metropolitan Hotel in Washington, Mr. and Mrs. F. D. Lander, Messrs. James Salsner, W. A. Howard and Jesse Harris, of Columbia, Dr. Eugene Beach, Lee Ridgely and Dr. John Campbell, of Franklin, and Mr. Patterson, of Lawrence County.

The Hartselle Globe says, "an unusually big crop of Irish potatoes will be planted in Trousdale County this season." The same is no doubt true of Maury, as large quantities of potatoes are being planted in some portions of the county where they have not been grown as a field crop before.

The Gallatin Tennesseean says: "There is, beyond all cavil, or question, a strong and growing sentiment favoring a law for the protection of the sheep interest. The people of Tennessee are now in a humor to demand some measure looking to that end. Depredations by the dogs are on the increase, and no human device has yet been used to successfully abate the growing evil. Tax the dogs and save the sheep."

It is said that Judge Howell E. Jackson, of Tennessee, now on the Supreme Bench, will buy the residence lately occupied by Justice Lamar, in Washington City.

State Treasurer Craig and Comptroller Harris have returned from New York, where they had been to investigate the general financial condition with reference to placing the \$1,000,000 of new Tennessee bonds. They report that the credit of the State is first rate and that there will be no trouble in placing as many or more of the bonds.

At Whitwell, Tenn., there was a fight between the Ross and Morrison families. Three of the Morrison boys were engaged in a row, also their friend Pope Dodson. Will Ross, with a knife, inflicted mortal wounds on two of the Morrison boys. Pope Dodson and Hugh Morrison turned on Will Ross, and cut him literally to pieces. Roy Morrison was dismembered, and Taylor Morrison was stabbed twice in the lungs. It is almost certain that Will Ross, Roy and Taylor Morrison will die.

Tennessee is to be represented at the World's Fair after all. Harrison, an East Tennessee town, has applied for the space allotted to Tennessee, which has been granted to it, and that plucky town will fill the space with a most creditable exhibit. Harrison will no doubt reap a rich reward for its gigantic stroke of enterprise.

A lawsuit without a parallel in the past history of the legal profession in West Tennessee was brought recently by Ernest Farmer against his two brothers-in-law, Ed and Charles Mosely. The case involves a narrow and delicate physiological question, which, briefly stated, is, "What is life?" In fuller terms, whether a baby certainly dead five minutes after birth was ever so alive as to have a legal existence, making it capable of becoming the heir to property and so of transmitting it. The brief history of the case is as follows: Dr. Mosely died eight years ago, leaving an estate to be divided among three children—one girl and two boys—all minors. Fourteen months ago the girl married Mr. Farmer, and died one year later with a still-born child. In the case this child never had actual existence her property went to her brothers; but if alive after birth its father would inherit his wife's share of the estate.

The case will be interesting throughout, as the testimony of the attending physician will settle the matter.
